Notes to the annual financial statements for the year ended 31 December 2021

1. Accounting policies

The following are the principal accounting policies used in preparation of the financial statements:

Basis of preparation

The annual financial statements are prepared on the historical cost basis and are consistent with those of previous years, except where otherwise indicated.

1.1 Fixed Assets - Property, plant and equipment

Property consists of land and buildings. Land is carried at cost while buildings are carried at cost less depreciation.

Plant and equipment consist of plant & equipment, computer equipment, office equipment, furniture & fittings and capitalised motor vehicles. Plant and equipment are measured at cost less depreciation.

Depreciation is calculated on a straight line basis over the expected useful lives of the assets by taking into account their residual values. The expected useful lives are:

Capitalised motor vehicles	5	years	20.0%
Computer Equipment	3	years	33.3%
Office Equipment	6	years	16.6%
Furniture & Fittings	6	years	16.6%
Other fixed assets	6	years	16.6%

Any asset with a cost of purchase less than R7000 is fully depreciated in the year that the asset is first brought into use.

1.2 Trade & other receivables

Trade and other receivables originated by the society are classified as at fair value through profit and loss.

1.3 Trade and other payables

Trade and other payables are measured amortised cost using the effective interest method.

1.4 Turnover

Turnover comprises of Subscriptions/Membership fees and some sales or services rendered to customers. Turnover is stated at the invoice amount and is exclusive of value added taxation.
